Le Monde

Le Monde Home opened their first concept store in Parnell 2009 choosing a large lofty warehouse which allowed them to showcase their unique products, to share their passion and vision. Greatly encouraged by the positive feedback they opened their second store in Ponsonby last year. Offering a collection of timeless updated Classics, their story is one of inspiration. Essentially home furnishings stores they have cleverly combined furniture with gifts and accessories. Also home to the now global phenomenon, Annie Sloan™ Chalk Paint – a versatile ultra-matte finish product.
